

# YOUR SPACE. YOUR VISION. **OUR QUALITY GUARANTEE.**

## **Project Management**

We will provide a dedicated experienced on-site supervisor, who will manage all renovations activities. We will liaise with you throughout the process by informing and providing you with updates on the execution of your renovation ensuring your project is completed on time and within budget.

## **Kitchens**

Often referred to as the heart of the home, the kitchen is the space that brings the family together. KPS Interiors can design and build a functional kitchen ranging from ultra-modern through to timelessly classic, so there is sure to be something that suits the current décor of your home, or that new look you are wanting to achieve whilst adding value to the most important room in your home. We will take care of each and every aspect of your kitchen renovation, from the initial consultation, through to design and then installation.

## **Bathrooms**

We will transform your tired and outdated bathroom into a fresh and modern space that you will truly enjoy using everyday. Our innovative and stylish bathroom designs cater for both residential and commercial requirements and offer modern flexibility with the latest fixtures and fittings.

## **Laundries**

The laundry is an essential part of any home but unfortunately it's also the room that is often forgotten. A poorly designed and neglected laundry can turn washing and drying clothes into a serious chore. However, with our experience and range of quality designs, your laundry can be transformed into not only a workable but also an enjoyable space that will fit into the style and function of your whole house.

## **Strip Outs and Make Good**

Whether you are renovating or moving in/out, our comprehensive strip out and make good services include:

- Demolition / removal of walls, Tiling & all built-in fixtures
- Taking down of ceilings and light fixtures
- Installation or removal of floor coverings
- Repairing & re-painting of original walls and ceilings
- Final clean up and removal of waste
